

A wonderfully fun and entertaining read. Reading this book has brought back many fond memories from reading *Little House on the Prairie*. Virginia reminded me so much of Laura. You will fall in love with each character in this book, especially Virginia. You will laugh alongside of Virginia as you read about her many adventures and all the lessons she learns. Hannah Loviisa has created a captivating story that all ages will enjoy and has truly captured what it would have been like living on a farm in the 1920's.

---

Laura Ingalls meets Anne Shirley in this spunky story by Hannah Loviisa. This book made me wish my grandmother had kept a diary. I loved every moment and every entry in Virginia's journal. Just six short months left me wishing for so much more to the story. This tale of Virginia Wilder, her friends, and family has earned a place on my bookshelf with other beloved stories. The writing is feisty and frank. My favorite thing about this book is that the girls were allowed to run and play just like the boys. While 1921 was a year of change and expansion in the United States, life on the farm was hard, dirty, never ending hours of work. The characters come to life and seem to jump off the pages. I found myself laughing out loud at Virginia's antics. She is surrounded by a warm, loving family who are quick to forgive, ready to laugh, and always willing to help a neighbor in need. Tales of life and death, joy and sorrow fill this book. Virginia is on the cusp of womanhood, discovering who she is and what matters most in her life. I loved the diary format and the historical information and pictures at the end. I recommend this book for all ages. I cannot wait to read another book by this author.
