

Homebound Services Policy

The East Bonner County Library District provides Homebound Services to patrons in good standing residing within the library district who wouldn't otherwise have access to library services.

Eligible patrons are those with a physical disability, and/or chronic illness that prevents them from leaving their homes. They must have no family members or friends available to aid in the delivery of library materials.

The East Bonner County Library District will also assist eligible patrons in obtaining services through the Idaho Talking Book Services when appropriate.
